TECHNICAL SKILLS

Technology: Java, JavaScript, MySQL,
Frameworks and Tools: Git, Github, Node.js, MongoDB, Express.js
Certificates: AWS Masters : Euron (Jan 2025)

EDUCATION

Vellore Institute of Technology, Bhopal India	Sept 2021 - Present
Bachelor of Technology in Computer Science and Engineering	*CGPA:* **8.25**
Aditya Birla Intermediate College, Renukoot	2019-2020
Class XII	*Percenatge: 81.2%*
Aditya Birla Intermediate College, Renukoot	2017-2018
Class X	*Percenatge: 83%*

PROJECTS

- **Laundry Management System** | *React.js, Node.js, Express.js, MongoDB.*   Jan 2024 - Mar 2024
  - **Developed** a university laundry management system **backend**, supporting over 500 students in scheduling, tracking, and managing laundry tasks, reducing manual errors by 30%.
  - Designed and implemented authentication mechanisms, enabling secure access and role-based functionality for **100+ daily active users**, improving system security and usability
  - **Enabled** laundry request workflows, processing an **average of 50+ daily requests**, with administrators able to accept, deny, or update request statuses efficiently.
  - Ensured robust backend performance with **ACID-compliant database transactions**, enhancing reliability and data integrity.

- **Cloud-Box** | *HTML, CSS, Node.js, Express.js, MongoDB, and Firebase.*   Nov 2024 - Dec 2024
  - Developed a **Google Drive-inspired** cloud storage system enabling secure **file upload, management, and retrieval** and Focused on **scalability and performance optimization** for handling large file uploads
  - Built the back-end using **Node.js and Express.js**, ensuring efficient API handling and routing.
  - Utilized **MongoDB** for database management, optimizing file metadata storage.
  - Integrated **Firebase** for real-time storage and authentication services..
  - Implemented user authentication and role-based access control for enhanced security.

WORK EXPERIENCE

SmartInternz	Jul 2024 – Aug 2024
Salesforce Developer	

- Successfully completed an 8-week virtual internship in Salesforce development, mastering Salesforce Fundamentals, Apex, Lightning Web Components (LWC), and process automation.
- Earned Salesforce Super Badges, including Apex Specialist, Process Automation Specialist, and Developer Super Set, showcasing a strong understanding of core Salesforce development concepts.
